

## INDEX

- Absorption of calcium and phosphorus and their fixation in the skeleton, the, 245.
- Achlorhydria and hydrochloric acid therapy in Addison's (pernicious) anaemia, 319.
- Acid-base equilibrium of the blood, disturbance of the, to the alkaline side, 405.
- Acute myelocythaemia and chloroma, 113.
- Addison's (pernicious) anaemia, achlorhydria and hydrochloric acid therapy in, 319.
- Adenoid child, the: a histological and clinical study, 162.
- Adrenalin, the reaction to, in man, 19.
- Aetiology of chronic infection of the spleen, experiments on the, 191.
- Alimentary tract, upper, pain in the, 53.
- Alkalaemia, 405.
- Anaemia, Addison's (pernicious), achlorhydria and hydrochloric acid therapy in, 319.
- Analysis of the literature of the operation of cardiolysis, with a description of two fresh cases, 179.
- Arterial elasticity in man, 225.
- Arthropathia psoriatica, 171.
- Association of Physicians of Great Britain and Ireland, Proceedings of the, *at end of volume*.
- Atrophy, liver, 81.
- Auricular fibrillation in thyro-toxic conditions, 326.
- Blood, disturbance of the acid-base equilibrium of the, to the alkaline side, 405; urine and, diastase determinations in, as a method for the measurement of the functional capacity of the kidney, 151.
- Blood coagulometer, a clinical, 312.
- Blue sclerotics, the association of, with brittle bones and progressive deafness, 274.
- Brittle bones and progressive deafness, the association of blue sclerotics with, 274.
- Calcium and phosphorus, the absorption of, and their fixation in the skeleton, 245.
- Cancer, the proteins of the serum in, 302.
- Cardiolysis, the operation of, with a description of two fresh cases and an analysis of the literature, 179.
- Cauda equina symptoms, paraplegia and, in lymphogranulomatosis maligna (Hodgkin's disease), 1.
- Cerebro-spinal fluid, the inorganic phosphorus content of, 289.
- Child, the adenoid: a histological and clinical study, 162.
- Chloroma, acute myelocythaemia and, 113.
- Chronic infection of the spleen, experiments on the aetiology of, 191.
- Clinical blood coagulometer, a, 312.
- Congenital pancreatic disease with infantilism, 358.
- Deafness, progressive, the association of blue sclerotics with brittle bones and, 274.
- Degeneration, on progressive lenticular (hepato-lenticular degeneration), 385.
- Diastase determinations in urine and blood as a method for the measurement of the functional capacity of the kidney, 151.
- Disseminated sclerosis, an investigation into the pathogenesis of, 129.
- Disturbance of the acid-base equilibrium of the blood to the alkaline side, 405.
- Elasticity, arterial, in man, 225.
- Equilibrium, acid-base, of the blood, disturbance of the, to the alkaline side, 405.
- Erythroedema polynuritis (the so-called 'pink disease'), 6.
- Experiments on the aetiology of chronic infection of the spleen, 191.
- Fibrillation, auricular, in thyro-toxic conditions, 326.
- Functional capacity of the kidney, diastase determinations in urine and blood as a method for the measurement of the, 151.
- Gastric secretion of the normal individual, the variations in, 215.
- Generalized myositis fibrosa, with the report of a case, 103.
- Glycosuria, renal: a clinical and metabolic study, 260.
- Hepatic condition in pregnancy, an investigation of the, and the laevulose test for liver efficiency, 37.
- Hepato-lenticular degeneration (progressive lenticular degeneration), on, 385.
- Hodgkin's disease (lymphogranulomatosis maligna), paraplegia and cauda equina symptoms in, 1.
- Hydrochloric acid therapy in Addison's (pernicious) anaemia, achlorhydria and, 319.

- Individual, normal, the variations in gastric secretion of the, 215.
- Infant, the under-nourished, a study of the metabolism in, 339.
- Infantilism, congenital pancreatic disease with, 358.
- Infection, chronic, of the spleen, experiments on the aetiology of, 191; laboratory, tularaemia in man from, 365.
- Inorganic phosphorus content of cerebrospinal fluid, the, 289.
- Investigation into the pathogenesis of disseminated sclerosis, an, 129.
- Kidney, functional capacity of the, diastase determinations in urine and blood as a method for the measurement of the, 151.
- Laboratory infection, tularaemia in man from, 365.
- Laevulose test for liver efficiency, the, and an investigation of the hepatic condition in pregnancy, 37.
- Liver atrophy, 81; efficiency, the laevulose test for, and an investigation of the hepatic condition in pregnancy, 37.
- Lymphocytosis, sepsis as a cause of, 210.
- Lymphogranulomatosis maligna (Hodgkin's disease), paraplegia and cauda equina symptoms in, 1.
- Man, arterial elasticity in, 225; the reaction to adrenalin in, 19; tularaemia in, from laboratory infection, 365.
- Measurement of the functional capacity of the kidney, diastase determinations in urine and blood as a method for the, 151.
- Metabolism, studies in calcium and phosphorus, 245; in the under-nourished infant, a study of the, 339.
- Myelocythaemia, acute, and chloroma, 113.
- Myositis fibrosa, generalized, with the report of a case, 103.
- Normal individual, the variations in gastric secretion of the, 215.
- Operation of cardiolysis, the, with a description of two fresh cases and an analysis of the literature, 179.
- Pain, visceral, in the upper alimentary tract, 53.
- Pancreatic disease, congenital, with infantilism, 358.
- Paraplegia and cauda equina symptoms in lymphogranulomatosis maligna (Hodgkin's disease), 1.
- Pathogenesis of disseminated sclerosis, an investigation into the, 129.
- Pernicious (Addison's) anaemia, achlorhydria and hydrochloric acid therapy in, 319.
- Phosphorus, calcium and, the absorption of, and their function in the skeleton, 245; content, the inorganic, of cerebrospinal fluid, 289.
- Physicians of Great Britain and Ireland, Proceedings of the Association of, *at end of volume*.
- 'Pink disease', the so-called (erythroedema polyneuritis), 6.
- Pregnancy, an investigation of the hepatic condition in, and the laevulose test for liver efficiency, 37.
- Progressive deafness, the association of blue sclerotics with brittle bones and, 274; lenticular degeneration (hepatolenticular degeneration), on, 385.
- Proteins of the serum in cancer, the, 302.
- Reaction to adrenalin, the, in man, 19.
- Renal glycosuria: a clinical and metabolic study, 260.
- Sclerosis, disseminated, an investigation into the pathogenesis of, 129.
- Sclerotics, blue, the association of, with brittle bones and progressive deafness, 274.
- Secretion, the variations in gastric, of the normal individual, 215.
- Sepsis as a cause of lymphocytosis, 210.
- Serum, the proteins of the, in cancer, 302.
- Skeleton, the absorption of calcium and phosphorus and their fixation in the, 245.
- Spleen, chronic infection of the, experiments on the aetiology of, 191.
- Study of the metabolism, a, in the under-nourished infant, 339.
- Thyro-toxic conditions, auricular fibrillation in, 326.
- Tularaemia in man from laboratory infection, 365.
- Under-nourished infant, metabolism of the, a study of the, 339.
- Upper alimentary tract, visceral pain in the, 53.
- Urine and blood, diastase determinations in, as a method for the measurement of the functional capacity of the kidney, 151.
- Variations in gastric secretion of the normal individual, the, 215.
- Visceral pain in the upper alimentary tract, 53.
